MISSION

Changing the way the world uses energy.

VISION

A world where every building, every vehicle and every device is covered with our solar films.

MAIN INDUSTRIES SERVED

BUILDINGS

MOBILITY

AEROSPACE

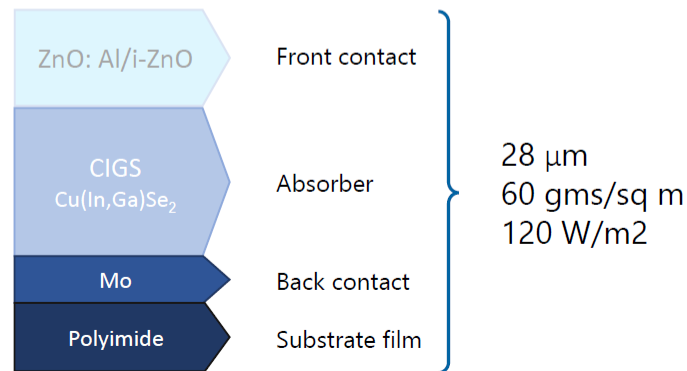

SPECIAL PROJECTS

ROLL-TO-ROLL MANUFACTURING

from inert plastic to PV module in one factory process

- Better process controls over the whole value chain
- Less manufacturing steps - less failure modes

3 KEY FEATURES

LIGHTWEIGHT & THIN

Less than 20% of the weight
of solar panels today.

FLEXIBLE

Rollable to 50mm diameter,
fits on curved surfaces.

AESTHETIC

Uniform black appearance.
